INCENTIVE PROGRAMMES

1. TRABANT RALLY

Race a Trabant, a very special car equipped with a two-stroke engine, in the streets of Prague. The starting point is usually located at the hotel for a group welcome and to explain the activity. The group is divided in three-person teams. Each team is assigned to a Trabant car and driver. We can put your firm's logo on the cars' doors.

Each team receives a map of Prague with markers so that passengers can guide the driver. Moreover, each team is equipped with a digital camera and rules. The goal is to complete the itinerary and win as many points as possible by accomplishing special missions (for instance: drawing a car, singing a song, loading luggage in the allotted time, pushing an engineless Trabant, taking pictures of buildings and patterns). In the second half of the race, clients test-drive a Trabant at our special school on a big parking lot. It's not a race – your time doesn't count; only points matter. Each member of the winning team receives a Trabant model car.

TEAMBUILDING PROGRAMMES

2. ŠKODA RALLY

Participants drive themselves! We offer a fun itinerary in the Czech countryside aboard an 80s car, either the Škoda 100 or 120.

Meet in the outskirts of Prague for a group greeting and to explain the rules. Your group is divided into teams of 4 players. Each team is assigned to a Škoda car with your firm's logo on the door, a map of the area with a drawn itinerary, a GPS navigator, rules, road maps, a digital camera and a cellular phone. The goal is to travel 40–50km. Participants must take up challenges, photograph buildings and themes, purchase things and communicate with «locals». Halfway through the race, a break with snacks or refreshments awaits the participants.

Time doesn't matter much, the team that accumulates the most points during the race wins. Members of the winning team receive Škoda 100 or Škoda 120 models.

3. CIPAD SCAVENGER HUNT

We offer the iPad City Game.

We begin with a short presentation, then divide the participants into groups of 6 to 10 players. Each team receives an iPad with the preinstalled game along with a short explanation of iPad functions after which the participants are left by themselves to play in the city. The game is filled with trivia, about Prague in particular. Furthermore, the iPad allows you to take pictures and video, to use a compass and a navigator or to find GPS control points.

SPORTS AND ADRENALINE PROGRAMMES

- Hot-air balloon ride, sightseeing plane rides
- City and countryside bike tours
- Barge on the Bat'a waterway in Moravia or dragon boat on the Vltava
- Rafting, canyoneering
- Horseback riding, golf adventure
- Rope climbing, bobsleigh
- Ice hockey or football with an instructor, curling
- Paintball, geocaching
- Tepfaktory amusement park – team adventure, Fort Boyard-style
- Extreme nature survival
- Garbage collector for a day

4. SKYDIVING IN A WIND TUNNEL

Experience the feeling of freefall safely in a wind tunnel at a risk-free height, under the surveillance of professional instructors! Skydive Arena is the only vertical wind tunnel in the world to feature a circular, glass-panelled flight room of a 4.3 meters diameter. At the incredible height of 14 metres, you'll realize what it feels like when the wind blows at speeds of over 270 km/h. This activity (sport) is designed for anybody in good physical health from ages 5 to 100! No previous experience is required and no physical preparation is necessary.

After a short briefing, each participant learns to master their body in freefall at the first entry into the wind tunnel.

Funflight... allows the general public, even people without prior skydiving or wind tunnel flight experience, to fly.
